COMPETITION

for part-time employment in the project

### "Quantum groups, graphs and symmetries via the representation theory"

(PI Adam Skalski)

We are looking for a PhD student or a postdoc willing to work part-time on the Opus-Lap project „**Quantum groups, graphs and symmetries via the representation theory**", collaborating with other team members.

The remuneration will cover 1 year (with a possible extension to two years), starting in 2022. The competition is open to all candidates which have a Master's or a PhD degree in the fields related to the project.

Applications together with a brief description of research interests, CV including the publication list and the agreement to process the personal should be sent before the 31 December 2021 by e-mail directly to the address a.skalski@impan.pl (with the subject line "KONKURS KWANTOWE GRUPY, GRAFY I SYMETRIE").

Additional information can be obtained by contacting the PI at a.skalski@impan.pl. The competition will be decided by the 10th of January 2022, and the candidates will be informed by e-mail.

DYREKTOR
Instytutu Matematycznego PAN

Prof. dr hab. Łukasz Stettner
