

Institute of Mathematics of the Polish Academy of Sciences

for temporary research positions for young mathematicians

The Institute offers several 1/2 - 2 year postdoctoral positions starting in the academic year 2022/2023. The eligibility condition is to have a PhD in mathematics obtained not earlier than in 2020 (or 2019 in case of post-PhD parental leave). Candidates without a PhD are also eligible, provided that the PhD degree is soon to be awarded, in which case a detailed opinion of the candidate's supervisor must be attached. Each candidate should point out with whom or under whose guidance she/he plans to work in the Institute.

Applications are expected to contain a research programme, CV, the list of publications, the reprints/preprints of papers published or accepted for publication, and two recommendation letters. Applications should be submitted by May 16, 2022, to the address konkurs@impan.pl (in the title of the e-mail, please write it Competition for young mathematicians).

We encourage qualified candidates to apply, regardless of sex, racial or ethnic origin, religion or belief, disability, age or sexual orientation.

Additional information can be obtained from Mrs Anna Poczmańska, email: anpo@impan.pl

The recommendation of the Evaluation Committee and the decision of the Director will be taken in the beginning of June, and announced to the candidates by mail shortly afterwards.

DYREKTOR
Instytutu Matematycznego PAN

Prof. dr hab. Łukasz Stettner
